

SEMAINE DE 23 > 29 AVRIL L'INTERGÉNÉRATION 2023

Hello everyone,

Are you familiar with the Intergenerational Week (in french Semaine de l'Intergénération : SIG), an event that highlights intergenerational initiatives in French-speaking Belgium – and abroad?

Since 2019, Belgium Ngo Entr'âges is coordinating this event including since 2020 activities that take part abroad. So join us now!

For **7 days, from 23 to 29 April 2023**, in the provinces of French-speaking Belgium and in the Brussels-Capital region, municipal services, libraries, associations and public services are working together to raise awareness among a wide public about the richness of intergenerational links.

By registering one or more intergenerational activities during the Intergenerational Week and by communicating all together about the 'SIG' via our website www.semainedelintergeneration.be we highlight the diversity of intergenerational

activities and create a link between the actors and actresses in the field. A great opportunity to promote your commitment.

Why do we need an Intergenerational Week?

For the Ngo Entr'Agés, which initiated the event, the intergenerational dynamic is essential to the vitality and well-being of our society and of each person. This is why we do everything we can to promote project leaders who work to improve solidarity between generations.
