

Vinyl Warriors in short...

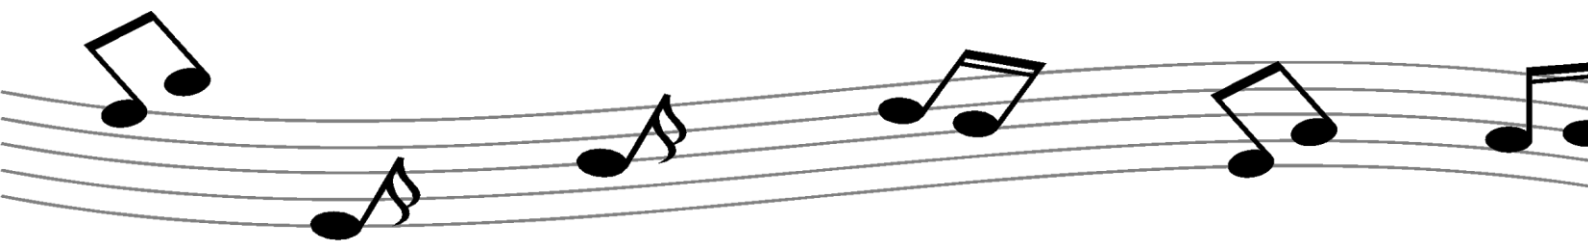

The “VINYL WARRIORS: Rediscovering Your Musical Youth - Digital Skills Training for Seniors” project proposes to develop an embedded learning training programme for seniors that encourages them to recover their musical youth. In the course of the project activities, participants will learn key digital skills to enable them to record in audio and video the musical performance they enact. In the pilot phase, a minimum of 20 seniors in each country will be engaged in producing the proposed musical performance and building their digital skills.
